Abstract

~~In the method of the invention for the management of The~~
roaming of mobile ~~subscribers~~ equipment between a home
network and foreign network is managed., ~~which are roaming~~
10 ~~between a home network and foreign networks, the~~ The roaming
behavior is based on the contents of control files saved in
the mobile equipment of the subscribers. A list of networks
to be used in a priority order in a roaming situation is
defined in the said control files. ~~When a subscriber is~~
15 ~~roaming~~ The management application, ~~which~~ checks the current
roaming setting for the ~~subscriber~~ mobile equipment and the
desired roaming behavior for the location that the mobile
equipment ~~subscriber~~ roamed into., ~~and as~~ As a result of the
comparison, ~~when necessary,~~ it the management application
20 adjusts the roaming setting to be in accordance with said the
desired roaming behavior.
